MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Command Policy # 48-03, Use of Government Non-Tactical Vehicles for Prisoner Transport

1. REFERENCES

- a. DOD 4500.36-R, 2-8, Management, Acquisition, and Use of Motor Vehicles, March 1994.
- b. AR 58-1, June 2000, Management, Acquisition, and Use of Administrative Motor Vehicles.
- c. AR 37-100, Defense Finance & Accounting Manual.
- d. FLW 58-1, June 2002, Management of Non Tactical Vehicles.

2. PURPOSE. Use of government owned vehicles are restricted to official purposes. Non-Tactical vehicles shall not be used to compete with commercial transportation.

3. GENERAL. When it has been determined that motor vehicle transportation is essential to the performance of official business outside the permissible operating distance of 100 miles, the regulations state the following methods shall be considered in the order shown to the extent they are available.

- a. DoD, Scheduled Bus Service.
- b. Public, Commercial Transportation
- c. DoD Motor Vehicles

4. POLICY/PROCEDURES. Finance regulations clearly define what transportation is funded for, which does not include prisoner transport. This is a unit responsibility. Because it is imperative to put a dangerous or convicted prisoner in confinement as soon as possible, the Transportation Motor Pool (TMP), Directorate of Logistics (DOL), will provide a GSA vehicle for one time transport to the confinement facility.

5. Retrieval and multiple transfers must be performed at unit expense. The DOL is funded for BASOP support; transport of prisoners is not included.
